

First author and manuscript title:

- Upload a completed Author Checklist with each submission to EID.
- Note that EID follows the policies and recommendations of the [ICMJE](#).

Proprietary Considerations and Requirements	
	Authors agree that if their manuscript is accepted for publication in <a href="#">Emerging Infectious Diseases</a> , it will upon publication be in the public domain and can be used without liability for copyright infringement.
	This manuscript (or one with substantially similar content written by the authors) has not been published previously.
	This article was published on a preprint service and is available at this URL:
	<b>Preprint Updates:</b> Authors agree to update the archived preprint with their article's Digital Object Identifier (DOI), a link to the version of the article published in EID, and a complete citation upon publication in EID.
	The corresponding author is the primary contact for reviewing the edited manuscript and galley proofs. Must provide full contact information (mailing address, email address, phone number) in the manuscript text.
	Financial support for this content is clearly disclosed in the manuscript.
	Any organization or person with a financial interest in the subject matter is disclosed in the manuscript.
	Authors have disclosed any conflicts of interest related to this article. EID accepts the <a href="#">ICMJE Conflict of Interest form</a> .
	This research has been approved by appropriate human or animal subjects research review boards, which are named in the manuscript. Refer to <a href="#">ICMJE's recommendations for Protection of Research Participants</a> .
	DNA and amino acid sequences have been submitted to an open access sequence database, such as GenBank, and accession numbers are used to refer to the sequences.
	Authors have included written permission from the publishers of any figures or tables previously published or adapted from published figures or tables.
	Authors have included written permission from persons identifiable in photographs, case descriptions, or pedigrees.
	Authors have included written permission from persons named in personal communications (oral or written) stating that they agree to be named and that the information cited is accurate.
Authorship and Acknowledgments	
	All authors and contributors meet the <a href="#">ICMJE criteria for those roles</a> , and all persons who made substantial contributions to this work but who did not fulfill the authorship criteria are named in the acknowledgments.
	Provided <a href="#">Open Researcher and Contributor ID (ORCID)</a> identifiers for submitting and corresponding authors. EID also encourages providing ORCIDs for all other authors.
	Obtained written permission has been from all persons listed as authors of this manuscript.
	Obtained written permission from all persons listed in the acknowledgments.
	Provided a two-sentence biography for the first author, or for both authors if there are only two, in the manuscript text.
Consent for Editing	
	All authors understand and agree that their manuscripts will be copyedited to conform to EID's style, word count limits, and requirements for formatting, references, figures, units of measure, and scientific nomenclature. Authors should consult the journal's <a href="#">Quick Guide to Article Information</a> and <a href="#">Author Resource Center</a> for guidance before submission.
